

Ashlie Beringer Named Among GDR's Top Women in Data 2022

Accolades | April 8, 2022

Global Data Review

Global Data Review named Palo Alto partner Ashlie Beringer to its list of [Women in Data 2022](#), which “spotlights women at the cutting edge of legislation, regulation and technology around the world.” The report was published on March 31, 2022. Ashlie Beringer, Co-Chair of Gibson Dunn’s Privacy, Cybersecurity and Data Innovation Practice Group, has more than two decades of experience representing media and technology companies in periods of transformation and crisis. Her practice focuses on defending technology companies in global regulatory and litigation matters and advising on product, business and compliance strategies, particularly on issues related to disruptive technologies, privacy, cybersecurity and the blockchain ecosystem.
