

Webcast: Maintenance of Oil and Gas Leases in These Troubled Times

Webcasts | May 7, 2020

In the current distressed environment of the oil and gas industry, there has been a great deal of discussion about, consideration of, and even implementation planning for, significantly reducing or even “shutting in” production. Join the Chair of Gibson Dunn’s Oil & Gas Practice Group, **Michael P. Darden**, as he discusses how and why this reduction or shut-in of production may occur and the consequences thereof, and provides a comprehensive examination of potential pitfalls and suggested courses of action.
